PROFILE SUMMARY

Full Stack Java Developer with expertise in **Java, SQL, and Web Development**. Experienced in **building scalable web applications, object-oriented design, and database optimization**. Passionate about **problem-solving and backend development**, seeking a **Software Developer role** to apply my technical expertise in real-world applications.

EDUCATION

Government Engineering College K R Pete
Bachelor of Engineering - Computer Science (2020 - 2024) | CGPA: 8.25

SKILLS

Programming & Backend Development:

- ✓ Java (Core Java, J2EE, JDBC)
- ✓ SQL (Joins, Stored Procedures, Query Optimization)
- ✓ Data Structures & Algorithms (Stacks, Queues, Linked Lists, Arrays)
- ✓ Software Development Life Cycle

Frontend Development:

- ✓ HTML, CSS, Basic JavaScript
- ✓ UI/UX using Swing, Window Builder

Tools & Technologies:

- ✓ Linux/Unix, Git

Soft Skills:

- ✓ **Problem-Solving:** Strong analytical & debugging skills in Java & SQL
- ✓ **Communication:** Experience in client interactions & teamwork

Currently Learning:

- ✓ Spring Boot, Hibernate, RESTful APIs
-

WORK EXPERIENCE

Front-End Web Development Intern | DM Techtrix (Aug 2023 - Sep 2023)

- ✓ Developed 30+ **mini-projects**, including **Amazon Clone, ID Card Generator, and Banners** using **HTML, CSS, JavaScript**.

- ✓ Built a **restaurant website for a client**.
- ✓ Strengthened **problem-solving skills** by working on real-world projects and debugging UI issues.

Full Stack Java Developer Intern | Kodnest

- ✓ Developed web applications using **Java, JDBC, and SQL**.
 - ✓ Built a **CRUD-based Java application** that interacts with a relational database.
 - ✓ Gained experience in **J2EE, Servlet, JSP**
-

PROJECTS

Smart Door Lock Security System Using IoT

- ✓ Developed a **secure door access system** using **IoT**, integrating **remote access control, visitor logs, and alerts**.
- ✓ Implemented **real-time user authentication** and **event-driven notifications**.

StructInteract Studio (Mini Project in Java & Swing)

- ✓ Designed a **Java-based interactive GUI** using **Swing & Window Builder**.
- ✓ Implemented **drag-and-drop UI elements** for better user experience.

Tic Tac Toe (Java-Based Game Project)

- ✓ Developed a **console-based Tic Tac Toe game** using **Java, OOP, and arrays**.
 - ✓ Built using **Java Swing for GUI interaction**.
 - ✓ Improved **game logic** with efficient condition checking.
-

CERTIFICATIONS

- ✓ **Kodnest Dream Factory - Full Stack Development** (*Java, JDBC, SQL, J2EE*)
 - ✓ **DM Techtrix - Front-End Web Development** (*HTML, CSS, JavaScript, UI/UX*)
-

ADDITIONAL INFORMATION

- ✓ **Operating Systems:** Linux/Unix, Windows
- ✓ **Languages:** English, Hindi, Kannada
